

> INTRODUCTION

TypeScriptReactNode.jsNext.jsTanStackPlaywrightWCAGRAG/AI

Senior Software Engineer | Hardened Infrastructure & Product-Focused Engineering

Engineering resilient, web-based systems for over two decades. From building industry-leading DDI (DNS/DHCP/IPAM) interfaces to scaling multi-tenant travel infrastructure, I specialize in "hardened" software—transforming complex features into clean, library-grade abstractions designed for long-term predictability.

Focus: Technical leadership, high-coverage testing architectures (Baseline TDD), and accessible (a11y) design. A remote-first "Force Multiplier" dedicated to WCAG 2.1 compliance, complex state orchestration, and the integration of Agentic AI workflows to optimize the SDLC.

> PROFESSIONAL EXPERIENCE

Travel Connect (Corivo)

Senior Software Engineer | Jan 2023 - Feb 2026

Acquired by TravelConnect

- **Frontend Architecture:** Expert-level proficiency in Next.js and React, specializing in scalable, multi-tenant architectures for the travel industry.
- **State & Form Management:** Advanced implementation of Tanstack (Query/Table/Router) and react-hook-form for complex, data-heavy applications.
- **Design Systems & Theming:** Deep expertise in CSS-in-JS and Utility-first CSS (Chakra UI V1/V2) with a focus on cross-application theme consistency.
- **Quality Assurance:** Robust end-to-end testing implementation using Playwright to ensure high-availability software.
- **Emerging Tech:** Advanced AI Prompt Engineering and integration to enhance development workflows and product features.
- **Tech Stack:** React.js, Next.js, TypeScript, TanStack, Chakra UI, Playwright, CI/CD.

Men&Mice

Software Engineer | Sep 2018 - Dec 2022

Acquired by BlueCat

Built custom UI for industry-leading cloud / hybrid / on-prem DNS IPAM solutions.

- **Challenges Met:**
 - Complex date time timezone logic.
 - UI components and styles unification.
 - Sync complex data with intuitive interfaces.
 - Product perpetual and subscription licenses.
- **Tech Stack:** React + TypeScript, React Query, React Hook Form, Styled Components, Testing Library, Jest, Cypress.

Opex ehf

Senior Software Engineer | Sep 2013 - Aug 2018

Acquired by Premis (merged into Opin Kerfi)

- Build web systems and web pages for clients.
- Developed a custom PHP framework used in all projects.
- **Tech Stack:** PHP, SQL.

Valka ehf

Software Engineer | Sep 2011 - Apr 2012

Acquired by Marel

- Development on RapidFish Software which manages, maintains and analyzes the processing and ordering operations of the automated fish processing mechanism.
- **Tech Stack:** PHP, SQL.

Internetið ehf

Software Engineer | Mar 2009 - Apr 2011

Went bankrupt in 2013

- Develop web systems and web pages for clients.
- **Tech Stack:** PHP, SQL.

Snerpa ehf

Software Engineer | Jan 2006 - Mar 2009

- Designed and developed websites and web systems for clients.
- Developed a CMS system that is still used in 2026.
- **Tech Stack:** PHP, SQL.

Araña ehf

Software Engineer | Jan 2004 - Jan 2006

- Part time developer working on various projects.
- **Tech Stack:** PHP, SQL.

> VOLUNTEER EXPERIENCE

NorthGuild (Engineering Collective)

Co-Founder & Core Architect | 2024.01 - Present

- Co-founded an independent GitHub organization focused on high-utility engineering tooling.
- Orchestrating a suite of Node.js-driven "work-utils" distributed via npx to streamline the modern developer experience (DX).
- Architecting modular, performance-first frontend systems and CLI environments.
- **Note:** This terminal experience is powered by the NorthGuild ecosystem.
- Tech stack: React, Node.js, Ink, NX Monorepos, TypeScript, Playwright, GitHub Actions.
- Focus: Developer Experience (DX), CLI Tooling, Automation, Software Craftsmanship.

"Building the tools we wish we had."

The Pigeon International Film Festival (PIFF)

Co-Founder | October 2021 - Current

- Designed and implemented the official web platform - <https://piff.js>
- Responsible for technical infrastructure and live streaming workflows
- Supporting digital operations of an annual cultural event
