AI-Native

Open Source

Senior/Staff Full-Stack Engineer · React · TypeScript · Next.js · Node · AI-Native

Senior frontend-leaning full-stack engineer, 10+ years in React, TypeScript, and Next.js. I build AI-native and in the open: six published npm packages of agent-ready developer tooling. I fix root causes, and I care about the parts that make software last — reusable architecture, accessibility, and real test coverage — across travel, network infrastructure, and EdTech. U.S. citizen and Finland permanent resident; former U.S. DoD Mandarin linguist (DLPT 3/3).

> PROFESSIONAL EXPERIENCE

Corivo (acquired by Travel Connect)

Senior Software Engineer | 2023.05 - 2026.05

- Core frontend engineer on a small team owning 11 applications on a multi-tenant travel platform (React, Next.js, TypeScript), through the company's acquisition by Travel Connect.
- Architected the frontend, authentication, and payment flows for a new set of multi-tenant customer portal apps, taking them from zero to production in four months.
- Built the company-wide reusable component and utility libraries and cross-app theming (Chakra UI, shadcn/ui) that every app on the platform depended on.
- Replaced tangled date/timezone handling platform-wide with a standards-based solution, securing data integrity for global bookings.
- Engineered the EN/CN localization framework that opened North Atlantic and Asian markets; led Chinese localization of customer-facing brands.
- Held the bar on accessibility (WCAG 2.2 AAA) and near-100% unit-test coverage (Vitest, Playwright); led code review and mentored teammates.
- Tech stack: Next.js, React, TypeScript, TanStack Query/Router, Chakra UI, shadcn/ui, Vitest, Playwright, Nx, pnpm, Cursor, Claude Code.
- Skills: Frontend architecture, design systems, localization (EN/CN), accessibility, data integrity, AI-assisted dev.

Men&Mice (acquired by BlueCat)

Frontend Engineer, DDI Infrastructure | 2021.06 - 2023.04

- Architected the UI of Micetro, a Gartner top-4 DDI platform (DNS/DHCP/IPAM) used by Fortune 500 enterprises to manage networks spanning millions of records.
- Designed the state-management strategy (TanStack Query) for data-heavy views rendering tens of thousands of records across Azure, AWS, hybrid, and on-prem.
- Unified fragmented legacy components into a maintainable, reusable design system.
- Built the frontend licensing flows for the perpetual-to-subscription transition, and overhauled timezone and audit-log handling to prevent network desync and auditing errors for global clients.
- Tech stack: React, TypeScript, TanStack Query, React Hook Form, Styled Components, Testing Library, Jest, Cypress.
- Skills: Data-heavy UI, design systems, state management, enterprise accessibility.

Unicon, Inc.

UX Developer (Frontend Engineer) | 2017.05 - 2021.05

- Delivered client platforms serving millions of learners for U.S. public-sector and EdTech clients, in a software consultancy.
- Built React and Vue applications on AWS serverless (Lambda, S3, Cognito, API Gateway) end to end, with CI and 90%+ test coverage.
- Ran technical audits and due diligence on client codebases, giving the deciding call on scalability versus refactor.
- Shipped WCAG 2.0 AAA-compliant SPAs integrated with Java Spring Boot backends, and built data visualization (custom SVG for Scholastic, D3 internally, chart libraries for the California Community Colleges platform).
- Tech stack: React, Vue, TypeScript, AWS Serverless, AngularJS/Angular, Java Spring Boot (integration), Sass, Webpack.
- Skills: Cloud-native frontend, accessibility, technical auditing, systems integration, mentorship.

Minted Sky Studios

Co-Founder / Product Owner | 2011.01 - 2021.03

- Co-founded a small studio building web products at the intersection of language learning and civic education.
- Owned product, UX/UI, testing, and content for DriversTest.info (a high-traffic civic learning tool) and VR-English, and contributed to the build.
- Introduced gamification (lives, coins, power-ups) that turned static study tools into high-engagement products.
- Ran SEO, performance, and monetization (ad and payment integration) on a PHP/MySQL stack.
- Tech stack: JavaScript (jQuery), HTML5, CSS3, PHP, MySQL, technical SEO, analytics.
- Skills: Product ownership, UX/UI, gamification, performance, monetization.

Centuri Group, Inc.

Application Developer (Enterprise Mobile & Web) | 2016.02 - 2017.05

- Built 8+ enterprise mobile and web apps for one of North America's largest utility-infrastructure firms, digitizing field-crew workflows.
- Built a modular one-stop dashboard and a field media-capture system that enabled real-time auditing of large infrastructure projects.
- Led the AngularJS-to-Angular migration, modernized legacy layouts to ES6 and CSS Flexbox, and presented on migration strategy at the ng-phx meetup.
- Tech stack: AngularJS, Angular, JavaScript (ES6), Sass, Cordova/PhoneGap, jQuery, Gulp.
- Skills: Enterprise mobile/web, migration, technical-debt reduction, field UX.

Shanghai Jiao Tong University

Technical Instructor (Frontend & Global Exams) | 2012.09 - 2016.02

- Created and taught the Intro to Web Development track and prepared students for TOEFL/IELTS and admission to top global universities.
- Took students from zero to production-grade HTML, CSS, and JavaScript, and built/maintained the learning platforms.
- Founded CoderDojoXL Shanghai, a coding community for university students.
- Tech stack: JavaScript, HTML5, CSS3, PHP, MintedSky platform.
- Skills: Curriculum design, technical mentorship, platform engineering, bilingual liaison.

ChinaNetCloud

Technical Knowledge & Systems Consultant (Cloud Operations) | 2014.01 - 2014.09

- At China's leading cloud managed-services provider, standardized the engineering documentation and procedures behind cloud-infrastructure and server operations for a global engineering team.
- Built and standardized internal engineering wikis and runbooks for cloud-infrastructure and server-management procedures.
- Advised on the engineer-facing internal tooling and dashboards, and produced technical onboarding materials.
- Tech stack: cloud managed services, internal admin tools, SOP documentation.
- Skills: Knowledge management, cloud-ops documentation, technical localization.

Wall Street English China

Foreign Trainer & UX Advisor | 2010.09 - 2013.05

- Business-English trainer for executives and high-net-worth clients (Top Foreign Consultant, 2011), with a product/UX side-thread.
- Built and integrated interactive learning modules (via the Minted Sky venture) into the curriculum, improving engagement.
- Produced UX mockups and product feedback for the corporate-training product line.
- Skills: Training, product/UX input, stakeholder management.

Powers Translation International

Technical Localization Specialist (Mandarin/English) | 2011.02 - 2013.02

- Technical localization across the IT, online-gaming, and automotive sectors.
- Localized 2M+ words of technical content and led the English track for large translation teams, building glossaries and quality benchmarks for consistency at scale.
- Tech stack: CAT tools, CMS, terminology management.
- Skills: Large-scale localization, terminology, globalization, QA.

NATIVIZED

Founder & Localization Project Lead | 2011.06 - 2012.01

- Founded and ran a bootstrapped EN-ZH localization agency serving the real-estate sector.
- Managed a distributed team of 5 bilingual translators and owned the QA framework and client relationships end to end.
- Skills: Entrepreneurship, team leadership, QA, client management.

Global Times

News Reporter | 2010.06 - 2010.09

- Bilingual reporter covering civic and community issues for an English-language audience; ran field interviews in Mandarin and filed structured English reports on daily deadlines.
- Skills: Research, information synthesis, bilingual reporting.

EF English First

Educational Program Designer | 2009.06 - 2010.06

- Designed the academic program for EF China's 2010 Shanghai World Expo summer program, and served as bilingual liaison for international staff.
- Skills: Program design, cross-cultural mediation.

U.S. Department of Defense

Mandarin Linguist | 2006.08 - 2009.04 · Washington, D.C.

- Translated science and technology materials for federal customers. DLPT5 Mandarin 3/3. TS/SCI clearance (now inactive).

> EDUCATION

University of Minnesota-Twin Cities

BA Summa Cum Laude: Chinese, Anthropology, East Asian Studies, & History | 1999.09 - 2003.05

- Graduated with highest honors (Summa Cum Laude) focusing on complex cultural and linguistic systems.
- Expanded foundational analytical frameworks for cross-cultural negotiation and historical data synthesis.
- Laid the academic groundwork for a career bridging Western and Asian technical markets.
- Focus: Cross-Cultural Analysis, Linguistic Ethnography, Historical Data Synthesis, Mandarin Chinese.

Yunnan Normal University

Advanced Chinese Certification | 2007.09 - 2008.05

- Completed intensive certification focused on Military Affairs, Science, High Technology, and Ethnography.
- Mastered technical and strategic vocabulary required for high-stakes governmental and technology liaison roles.
- Gained deep immersion in regional military and high-tech sectors to support future intelligence and engineering tasks.
- Focus: Military Mandarin, Scientific Documentation, Technical i18n, Strategic Communication.

Nankai University

Advanced Chinese Certification | 2003.09 - 2004.06

- Focused on high-level linguistic fluency and cultural integration within the Chinese academic system.
- Fostered professional-grade communication skills utilized in subsequent leadership roles in Shanghai.
- Focus: Academic Mandarin, Cultural Integration, Advanced Linguistics.

> ORGANIZATIONS

NorthGuild

Open-Source Engineering | 2026.02 - Present

- Build and publish developer tooling in the open, distributed via npm/npv. See Projects for the packages.
- Tech stack: Node.js, TypeScript, Nx monorepos, Playwright, GitHub Actions.
- Focus: developer experience, CLI tooling, AI-native workflows.

Suomen Paluumuuttajayhdistys ry (Finland Remigrants Association)

Founding Chair (Puheenjohtaja) | 2025 - Present

- Built and maintain the community's digital ecosystem; co-lead advocacy with Members of Parliament and national organizations.

Kolunsaran Sukuseura ry (Kolunsarka Family Association)

Member (Jäsen) | [Insert Year] - Present

- Support organization through lifetime membership, purchase of geneological works
- Look forward to attending family gathering of long lost relatives

CoderDojoXL (Shanghai)

Founder & Technical Lead | 2012.09 - 2016.02

- Founded a coding community bridging students and industry; ran weekly technical seminars.
- Skills: mentorship, curriculum design, community building, public speaking.
